

PINORD's +7 GOLD MEDAL IN ONE OF THE MOST IMPORTANT ORGANIC WINE COMPE- TITIONS IN THE WORLD

The German wine competition MUNDUS VINI was first held in 2001. Its success has grown over the years and it has become one of the most prestigious and greatest competitions in the world of wine. This year's jury have tasted over 7,300 wines from the best wine regions in the world.

This year, 2015, in its BIOFACH section, which qualifies and gives awards exclusively to organic wines from around the world, it has awarded a GOLD MEDAL to the 2009 vintage of +7. This is one of the wines made by PINORD at its Mas Blanc estate within the wine appellation of the D.O.Ca. PRIORAT.

PINORD has been recognised once again for its dedication to organic and biodynamic farming methods, starting as a pioneer at its Mas Blanc estate, the first in Spain to receive the Demeter Biodynamic farming certification.

This award will be added to the numerous other accolades received in different international competitions in the last few years for PINORD's wines.
